Events with a DJ acting as a performer who, in the production, uses and modifies musical works by means of music carriers or technical equipment – 28.5% discount on OSA rate under the Discos tariff, I. Normal use.

Multiple productions – 5% discount applies if the operator enters into a license agreement for more than 5 separate music productions. The discount may be applied also to individual tours provided that at least 5 separate productions are held within the tour. It cannot be combined with the discount for repeated productions. The discount does not apply to music productions reported via an OSA regional representative after holding the production.

Educational music productions – Educational music productions for schools and pre-schools, young offender institutions etc. – 5% discount.

V. Common provisions

1. This tariff sets out the rates of royalties of the collective management organization OSA – Ochranný svaz autorský pro práva k dílům hudebním, z.s. (hereinafter referred to as “OSA”), INTERGRAM, nezávislá společnost výkonných umělců a výrobců zvukových a zvukově-obrazových záznamů, z.s. (a registered independent association of performers and producers of phonograms and audiovisual fixations), and Ochranná asociace zvukařů – autorů, z.s. (a registered association for the protection of sound engineers – authors) for the granting of a license to use musical works where the works are performed from phonograms and audiovisual fixations in the holding of music productions to dance or listen to (e.g. discos, fashion shows, corporate events, festivals, club events and similar music productions with recorded music).
2. A musical work according to this tariff shall mean any musical work and any verbal work used in connection with a musical work.
3. The rates of royalties are stated exclusive of VAT which shall be added at the standard rate according to general legislation.
4. The minimum royalty is considered the minimum value of the repertoire regardless of the scope of use of musical works.
5. Cases not regulated by this or any other tariff shall be handled by agreement.
6. This tariff shall replace any previous tariffs which set the rates of royalties for the granting of a license to use the works as specified in this tariff.
7. This tariff shall come into force and take effect on 1 January 2023.
8. The rates listed in this tariff are in tariff A. Tariff A applies if the operator fulfils its obligations in a proper and timely manner. Proper fulfilment of obligations means sending an application for permission to perform OSA works no later than 5 days before holding a music production. Furthermore, the operator may not have any overdue liabilities towards OSA at the time of issuing the draft license agreement and must meet, on a regular basis, their other obligations by the due date and in accordance with the Copyright Act. Tariff B applies where these conditions are not met. In the case of live music productions, tariff B is equal to 1.15 times tariff A as specified herein.
